

BY TELEGRAPH.

ARRIVAL OF THE STEAMER NIAGARA.

One Week Later From Europe.

New York, June 20.

The Niagara from Liverpool, with dates to the 7th has just arrived.

Parliamentary proceedings are uninteresting.

Holyhead has been decided on as the place of departure for the Cunard Steamers.

Bishop Hughes is at Liverpool.

FRANCE.

On Tuesday the Bureau of the Assembly met to choose their President, etc., and the Bonapartes were all excluded to a man. Great excitement prevailed in the Assembly upon the first motion, and it was rejected by 306 to 395. This is the first blow of the Assembly, but during the debate a more important incident occurred. Gen. Canger took an opportunity of speaking on the question and in advancing to the tribune shook hands with Mr. Leon and Mr. Buffet, the two ministers. His intrepid speech was loudly cheered.

The Globe Paris correspondent states that in consequence of the news from Portugal, the French Ambassador, at Lisbon, had to give a cordial support to the English Ambassador, for the protection of the person of the Queen.

PORTUGAL.

Another rebellion has taken place, and this time it is in favor of the Queen against Salbans. The French and English ambassadors had combined to give support to the Queen.

A serious riot occurred at Florence on the 24th. Several persons were killed. Late Sidney advises state that two wrecked vessels had been discovered in St. George's Sound, supposed to be Sir John Franklin's.

ENGLAND.

The great exhibition continues to be crowded. On the 5th of June the number of visitors was 58,000.

The steamer Salina arrived at Southampton on the 6th of June. She brought among her passengers the distinguished Hungarian, Gen. Loizer Mosso, and 40 Hungarians.

Soldiers, Messinas took leave of Kosuth at Knyah on the 6th of May last. The great Magyar was there in bodily health but much broken in spirit, owing to his long captivity. He has again been promised his liberty in September next, by the Turkish Government.

Kosuth's wife and child were with him, and about 25 Hungarians, who are still prisoners in Knyah. There are now remaining prisoners in the Turkish domains about 40 Hungarians.

ITALY.

A riot had taken place at Florence on the 29th ult. The people were fired upon. Two were killed and seven or eight wounded.

PRUSSIA.

Our advices from Berlin to June 4, inform us that the Danish Minister of Foreign Affairs has proceeded to Warsaw, and that Baron Thuman, the Federal Commissioner in Holstein, arrived on that day, to follow him to the same place.

AUSTRIA.

Accounts from Vienna to June 1st, state that rumors of a loan, and also of an emission of the reserved shares of the Bank of Vienna were again current, but failed to produce large sales.

BELGIUM.

We are assured that the ministerial crisis is well nigh at an end. The resignation placed in the King's hand, in consequence of the vote of May 16th, has been refused. The Cabinet will retain office without any modification.

SPAIN.

A telegraphic despatch of the 1st inst., from Madrid, announces the opening of the Cortes.

The Epoca announces that the Marquis de Miraflores had addressed a very energetic note on the affairs of Portugal, to the Cabinet of London, Paris and Lisbon, who, with that of Madrid, signed the treaty of Quadruple Alliance. The Marquis is said to be of opinion that a military interference ought immediately to be determined on.

SAN FRANCISCO DEVASTATED BY FIRE.

\$10,000,000 worth of Property destroyed.

ONE THOUSAND HOUSES BURNED.

New York, June 19.

The Steamship "Crescent City," from Chagres, has just arrived at this port. She does not bring the mails, the Agent having refused to send them by her. The Steamer "Cherokee" had not arrived when the "Crescent City" sailed.

The "Crescent City" brings 520 passengers and \$727,000 in gold dust.

San Francisco is again in ashes. Smoke and flames are triumphant over several squares of the City, as if the god of destruction had enthroned himself in our midst, and was engaging himself and all his ministers of destruction upon the ruins of our doomed City and its people.

About 1 o'clock last night the cry of fire was raised. The flame had just started in a Paint Shop. At the West side of Portsmouth Square, adjoining the Bryant House formerly on Jackson street, and all the intervening blocks to Battery street. The shipping in the harbor escaped, except the Niantic, Apolo, and the Gen. Harrison store ship. Montgomery, Fine, Sanson, Commercial and Clay streets were nearly destroyed. The Sacramento Hotel was blown up. Howard & Greentown's building, containing many valuable law libraries, Jones' Hotel, the Valdes Bank, Dodge & Co's Express Office, A. Henne's building, Calif Exchange and Cook & Brothers' store were saved. The Dramatic Museum, Custom House, Parker House, Jenny Lind Theatre, Adams & Co's Express, Empire House, and Union Hotel were among the buildings burned. The destruction of the Union Hotel involves a loss of \$250,000. Adams & Co's books were saved. The deposits of Wells & Co. are safe.

Before the Engines could get to the ground, the American, on one side, and a store occupied by Mrs. Rhodes as a furnishing establishment, were in flames. The buildings in the vicinity being all of wood and very combustible, the fire spread up Clay street with frightful rapidity.

The Fire Department could only work upon the borders, and endeavor to check its progress by anticipating it. In this way they succeeded on the North side before it reached Dupont street; but in every other direction, in which it could spread, it took its

own course, with but little chance to save anything.

From the South it spread to Bush street and to the East part of Jackson street. Everything East of Dupont street, to the Wharf, was destroyed. The blocks between Dupont and Kearney streets, West of Portsmouth Square, as far as Bush street, (three in number), are in ashes; between Bush, Jackson, Kearney and Montgomery streets, five in number, are all burned; between Montgomery and Lawson st., five in number, are all down. Besides these thirteen blocks, almost every building is destroyed. It is impossible to guess at the number of buildings, or the amount of property destroyed; 1,000 buildings are within the range of truth. We judge \$10,000,000 could not replace the destruction; some place it at three times that amount.

Three-fourths of the business part of the City is destroyed. The principal buildings are the Custom House, Union Hotel, Parker House, Jones' Hotel, Adelphi Theatre, Dramatic Museum, National New World, City Hotel, Delmonico, Merchant's Exchange and Ross Buildings—the ships Niantic and Gen. Harrison, and every newspaper office, except the Alta California. Nearly all the Banks are in the list: Burgoyne & Co., Wells & Co., Jas King, Wm. Delmonico; American Hotel and Revere House. The Pacific mail steamship Co's coal was burned. Not a house is left on Devedes street, nor anything on either side of Long Wharf to the Battery and White Hall. Scarcely a fire proof building in the burnt district has stood the test; such as have are the California Exchange, El Dorado, Verandah, and buildings of Capt. Howard, of which was the U. S. Assaying Office of Moffat & Co. The offices of the custom house saved the specie of the office, by casting it in a well. About a million of dollars were saved in this way. Mr. Green, the collector, and a number of others have all their private offices destroyed. The books and papers were nearly all saved. The large U. S. bonded warehouse, containing 2000 tons of merchandise, was saved. The Banking house of Burgoyne had \$1,500,000 taken out of which was not singed or damaged. The fire swept everything down, on the eastern side of Kearney street.

The Alta California of a late date says: Measures have been taken to supply the City with water from a tank near three miles from it. A proposition has been laid before the City Councils by a Mr. Merrifield, and was to be acted on May 15th, and if favorable, Mr. M. would leave immediately for the Atlantic States to contract for the pipes and other materials. The rebuilding had already commenced. The list of sufferers includes the names of 700 firms and individuals, amongst the heaviest of which are J. B. Biddleman, \$200,000; Simonsfield, J. B. & Co., \$150,000; Starkey & Brothers, \$150,000; Kelly, Smith & Kelly, \$125,000; J. O. Lehmer, Hirsch & Co., \$130,000; Moore, Knicker & Co., \$130,000; De Boom, Vignaux & Gisar, \$137,000; N. Michie & Co., \$200,000; Dalington & Co., \$150,000; Middleton & Love, \$250,000.

Six men were burned to death in one building. Their names are Capt. Welsh, of the Ship "Louis Richland"; Edward Cahill, Leon Greenough, Reuben Baker, Musbaum and Rosenthal. Many individuals were seriously burned and otherwise injured. Among them Gen. James Wilson.

Vigorous measures had been taken for rebuilding the burnt district, and the buildings were going up in all directions.

REBUILDING OF THE CITY.

From the San Francisco Herald we learn that they are rebuilding the city, which is alive with workmen engaged in rebuilding the burnt district. The Alta California gives the following astonishing incidents of the recuperative energy of San Francisco. From Monday the 5th, when the fire ceased, up to the present time, May 14th, an interval of 10 days, 367 buildings have been commenced, the major part are finished; this exclusive of the many that are going up in other parts of the city, not touched by fire. Including them, the total number of houses completed or erecting throughout the city, will not fall short of four hundred and fifty. The newspaper, "The Public Balance," has ceased its publication and will not appear to-day. The Playmate office was entirely destroyed; there was nothing saved. The True Standard shared the same disaster; its making efforts to re-appear on Monday. The Pacific and Herald, though great losers, made their appearance on Wednesday.

EARTHQUAKE AT SAN FRANCISCO. On the morning of the 15th of May, the shock of an earthquake was felt at San Francisco, which lasted nearly one minute. San Francisco is still swarming with burglars.

DEATHS.—Died in San Francisco, May 3, Capt. James Welsh, of Baltimore, Theodore Smith, do, Margie M. Williams, do, May 8th, Mosie M. Williams, do, Washington, D. C., May 9th, John McCallison, and Gen. McCalla, of Washington, D. C.

MARKETS.

The San Francisco markets were quite unsettled by the destruction of property by the fire. The quantity of breadstuffs destroyed was not so large as of many other articles. Flour has an upward tendency. Harrell's and Callego's brands are in good demand. There is little change in Barley, Oats, Corn or Beans, the stock being good.

Immense quantities of shoes were destroyed, and the demand is likely to be good. Bricks are in demand at good prices, ranging from \$4.00 to 100 for 1000. Coffee was slightly improved and is firm.

The stock of provisions is heavy and the prices improved but little. Mess pork \$16, prime do, 10. Lard \$14 per 100 lbs. Hams 15c. The stock of sugar is good, and prices are improving, with considerable sales. Metals have improved, particularly those for house-building.

Domestic goods have materially improved.

THE ELECTIONS.

The political world is all alive, making preparations for the State and Congressional elections that are to take place in August. Strict party lines have been drawn throughout the State; delegates have been appointed by nearly every county to attend the Democratic State Convention to be held at Benicia on the 19th. The Whig Convention for the nomination of State and Congressional officers, will be held in this city on the 4th Monday of May. Many counties have already appointed delegates to attend. There is every prospect of an animated and spirited campaign.

STEAMER WRECKED.

The Steamer Commodore Preble was wrecked at Trinidad bay on the 6th of May.

ELECTION IN SACRAMENTO.

The election in Sacramento had resulted in the choice of Mr. Harndenburg, dem., for Mayor. The whigs elected the balance of the city officers and seven aldermen.

THE INDIANS.

The Indian Commissioners have succeeded in making treaties with the Indians in San Joaquin district. The U. S. troops and volunteers are still in the field to protect the inhabitants.

Destructive Fire at Stockton.

LOSS \$1,000,000.

May 13.

We are indebted to Capt. Whitney of the steamer C. M. Weber, for a Journal extra, giving an account of a most destructive fire at Stockton on Wednesday night. The late-ness of the hour prevents us from furnishing the full particulars. The following extract gives an idea of the extent of this sad calamity.

The fire originated in a new and beautiful house just opened under the name of the Merchants' Hotel, formerly known as the Branch, and beyond a doubt was the work of an incendiary. It is supposed that some miscreant intended by this diabolical means, to succeed in releasing the prisoners now confined in the county jail; but the purpose failed in its accomplishment, as the winds proved unpropitious, and turned the course of the devastating element upon more precious and costly fuel to satisfy its long slumbering rage. From the point at which it originated, the fire swept up Levee-st, prostrating Montgomery's stately antique establishment, the large and magnificent El Placer building, the El Dorado, Hotel do Mejico, Des. Clements & Reine drug store, Dickinson House, and all the buildings on those two central squares. From them it spread across to the Central House, and in three quarters of an hour from the first alarm our large three-story building was enveloped in flames. By the most strenuous exertions we succeeded in saving our press and printing material, though in a very damaged condition. The occupants of the Stockton Club Room succeeded in saving their buildings, though they were in eminent danger.

Every mercantile house on Levee-st, except six; all on Main-st; all on Center-st; all on El-Dorado-st, except two; and all on Hunter-st, except three, compose the victims of this incendiary attempt.

Toronto, June 19.

A bill was introduced into the Assembly to vacate the seats of members who have been guilty of treason, or taken the oath of allegiance to foreign States. It was aimed especially at Mr. McKenzie, and if passed several will lose their seats.

Philadelphia, June 20.

The brig Delphi, from Trinidad de Cuba, with a cargo of molasses, which was ashore on Fenwick's Island, and had been got off Tuesday, was driven on again in a heavy gale Wednesday, and so much injured in the hull that the wreckers have given her up as a total loss.

NEW YORK MARKET—June 24.

Flour is lower; with sales of 4,000 bbls. at 31c for common to straight state brands. Southern is languid, with sales at 43c to 44c. Corn is cheaper, with sales at 55c to 56c. Groceries are quiet and declining. Sales of Rio Coffee at 8c. Sales of Sugar at 5c. Rice is active at from 3 to 3 1/2c.

ATTENTION! THE WHOLE.

WE are now in Cadiz, for the purpose of making an immediate settlement of our business; and having but a short time to stay, must require all persons indebted to us to come forward immediately and settle up. Those who do not attend to this call, will find their accounts and notes in the hands of a Justice of the Peace for immediate collection. We will be found at the old stand.

D. KILGORE & SON.

Cadiz, June 10-2m

The Cincinnati Type Foundry.

THE patrons of this establishment are informed that its business will suffer as little change as possible, in consequence of the death of the late Agent, Mr. Horace Wells. The mechanical department will continue in charge of Messrs. T. D. and William Wells, to whose efforts it is already mainly indebted for its present high state of perfection, and in a few days will be enabled to render its manufactures fully what they profess to be—equal to any in the world. A large new and complete Stock Book is rapidly printing, which we expect to have ready for distribution about the first of September. We have on hand a large stock of Printing Material of every description, including new and second-hand Power and Hand Presses, which we are ready to sell on six months' time for good notes, or make a discount of ten per cent. for regular prices for cash down. All orders addressed to the Cincinnati Type Foundry will meet with prompt attention. Four times before the first of August next, and sending us a copy of the paper containing it, the paid in type, on purchasing three times the amount of this type.

CADIZ HOTEL.

FORMERLY KEPT BY JOHN S. LACEY.

THE subscribers wish to inform his friends and the public generally, that he has taken the said hotel and has given it a thorough repainting and has reduced the

FARE REDUCED!

I am determined to give good Fare, and to make lower bills than was ever made in this hotel. The public is well aware that this house has been badly kept for some time past, but I am confident, by strict attention to business, that it can again be elevated to its former position. Please give me a call, and prove the truth of these assertions.

Livery Stable.

In connection with this house is a GOOD LIVERY STABLE. Persons wishing to hire a horse can be accommodated at the shortest notice, and on the most reasonable terms.

D. TURNER.

WISTAR'S BALM OF WILD CHERRY.

WISTAR'S BALM OF WILD CHERRY is a fine herbal Medicine—composed solely of Wild Cherry Bark and the genuine essence of Mustard (the latter imported expressly for this purpose.) the rare medical virtues of which are also combined with a new chemical process, with the Extract of Tar—thus rendering the whole medicine the most certain and efficacious remedy ever discovered for

Consumption of the Lungs!

Interesting Correspondence.—Dr. W. V. Banks, of Xenia, Ohio, a highly respectable Druggist in that delightful village, informed us that the Wistar's Balm of Wild Cherry is unparalleled. The demand for it is so great, that he can hardly keep himself supplied with it. He has had in his store medicines for lung affections. Some of these were esteemed good and some bad, but he had never found one so good as Wistar's Balm of Wild Cherry, a number of the most serious cases were completely cured by its use. "I never sold a medicine," says the Doctor, "that I had entire confidence that I have in this."

Great American Specific.

So far as it is known, it is universally appreciated, and many eminent physicians use it daily in practice with the most happy effects, and certify that it is the best extract in existence, and the only one that

STANDS THE TEST OF TIME.

Every year adds to its great popularity, and multiplies its astonishing cures. It is a HEREDITARY SCORFUL, with purifying glands, honey-combed flesh, and carries out the waste, finds Guyton's Yellow Dock and Sarsaparilla the best for his afflictions. His horrible torments are so managed, and his malady not only relieved, but

PERMANENTLY CURED.

It has been safely ascertained from the results of past experience, that "Dr. Guyton's Extract of Yellow Dock and Sarsaparilla" is beyond all comparison, the

Most Wonderful Remedy on Earth!

for the following diseases, and all others proceeding from

VITATED BLOOD:

Scorful, or King's Evil; Rheumatism, Obsolete Scars, or Eruptions; Pimples or Postules on the Face; Bleeding; Glands; Chronic Sore Head; Eruptions of the Skin; Syphilis; Bone and Joint, Stomach Ulcers, Syphilis Symptoms, Scalds or Lumbago; and diseases arising from an impure blood.

Country papers publishing this advertisement four times before the first of August next, and sending us a copy of the paper containing it, the paid in type, on purchasing three times the amount of this type.
